Who is Latvian?

- The main question was ,who are Latvians? Latvians are a strong nation that, despite its small size, is able to compete with stronger nations. We are able to prove that we love our country, are proud of Latvia and that we are Latvians and we born in this teretor. Latvians are persistent and purposeful, we will always go towards our goals. From the very beginning, we developed our culture by writing unique works of literature and poetry that distinguish our nationality from others. Latvians are a very motivated nation. We will take and do everything.
